Join us as we embark upon our fabulous first-ever fully female-guided adventures! Led by Serian's legion of lovely lady guides, we start our journey in Kenya in the Mara North Conservancy and wend our way down to Tanzania's Northern Serengeti, with much meandering en route to take in the marvels of this breathtaking part of the planet.

Serian guests automatically have exclusive use of their safari vehicle at no extra cost, as well as a plethora of activities to enjoy: walking safaris, flycamping, night game drives, yoga sessions, photography, ballooning, and more. In addition, you will be accompanied by the same female guides through out your entire East Africa safari.

Ladybugs are celebrated in nature not only for their beauty but also as key indicators of a healthy, balanced ecosystem. At Serian, we believe that by choosing to celebrate and empower our lady guides, we are contributing to a better balance in what has traditionally been a male-dominated safari world.

DAY 4

Set in our own conservation area that no one has access to but us, we have built a little tree house above a lively salt lick on the Mara River. A fantastic position to perch and watch the world go by, by night nothing but branches between you and the stars. Walking this wild space, you will feel the opening of your senses, sharpening in response to the immediacy of the wilderness: vision, sound, smell all respond to the challenge of perceiving and reading the primordial signals of the bush.

DAY 7 • 8 • 9 • 10

The Lamai Wedge is a golden triangle defined by the Kenyan border on top, and the Mara River below, and remarkable for the beauty of the landscape as well as for fantastic sightings of predators and black rhino. Our camp is poised for action just above one of the major wildebeest crossing points, promising plenty of drama and action. Away from the river, absorb the mesmerising savannah, and spend quality time seeking out and hanging with animals. Have a picnic under a tree: channel the full-bellied lions and gaze up at the sunlight dappling through the leaves.
