DAY 1 • 2 • 3 • 4

Set on the edge of the short-grass plains that host the wildebeest birthing season, it's hard to imagine a more stunning backdrop to your adventure. Dramatic storms sweep in new life, and babies and attendant predators are everywhere. Flora bursts forth, fields of wildflowers bloom, and the striking contrast of red Masai against the emerald background makes for a perfect palette. Part of the beauty of this spot is the unspoilt cultural element, and an idyllic opportunity to capture the Masai way of life in its most natural state. Settle into the safari swing of things, and slowly delve into the layers of meaning that give substance to the surface images.

DAY 5 • 6 • 7 • 8

Tucked away under a Tortilis canopy, Kusini is set in the Ndutu area with all the advantages of the plethora of game, without the crowds. This part of the world is remarkable for its sheer mind-boggling immensity: think unending savannah, massive vaulted skies – and 2 million wildebeest giving birth to 400,000 calves within a period of 3 to 4 weeks. A spectacular game-viewing area encompassing high concentrations of cheetah, honey badger, golden-backed jackal and hyena, as well as a parade of predators feasting on the newborns. Our guides have an intimate familiarity with the landscape, and will translate and render it until you see it through their eyes.
