

# COVID 19 PREPARATIONS & POLICIES AT ALEX WALKER'S SERIAN CAMPS

The Serian team has implemented a strategic approach to COVID-19 protocols to provide a safe and healthy environment for our guests and staff. We operate small tented camps featuring exclusive use of vehicle, and all activities are private, so has it has been a relatively seamless transition to the “new normal”.

- All of our camps offer **exclusive use of vehicle**, private al fresco bush breakfasts, bush dinners and private dining.
- Guest tents and communal mess areas will be **deep cleaned** before guest arrival.
- Our Kenya camps by virtue of their size are small (4 - 5 tents per camp) and are perfect for exclusive use.

- Also, within the Tanzania camps, to minimize risk, we have divided the camp into smaller “**pods**” with a dedicated team of staff so that guests will have a limited amount of staff interaction. It’s essentially an **isolated pod**, ideal for guests looking for **extended stays** to maximize safety while staying in one location and familiarizing yourself with these beautiful areas.
