## DAY 2 • 3 • 4

Serian is the first of Alex's charismatic camps, and it's set along the banks of the Mara, bursting with laughing pods of languorous hippo. 'Mara' is the Masai word for 'dotted', and indeed this rich zone is littered with wildlife wherever you look – famed for its sheer density of game, this is the perfect location to kick off your safari. Explore in one of our safari vehicles, or take a walk on the wild side and head out on foot – both will bring different levels and layers to your experience... And top it off with a nocturnal adventure: take a bush dinner and red-filter spotlights and discover what the wilderness has to offer by way of nightlife.

## DAY 5 • 6 • 7

Nkorombo is nestled in a stunning little spot on a bend in the Mara River, embodying the laid-back intimacy characteristic of Alex's camps. Awaken feeling part of a nature documentary amidst lions, zebras and buffaloes... This reserve takes its name from the Masai word for 'dotted', and indeed the gently rolling grasslands are littered with wildlife. Birds, too, are prolific.

A photographer's dream. The rich abundance, blissfully empty of the crowds: get your eye in with plentiful game and spectacular landscapes.

A person with their back to the camera is sitting on a wooden bench in a lush, wooded area. They are holding a small glass in their right hand. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. In the background, a river flows through a dense forest. The overall mood is peaceful and serene.

## DAY 8 • 9 • 10

Leaving the Mara River behind, our Serengeti South camp takes you to the extreme tip of the savannah. Set on the edge of the short-grass plains that host the million-strong wildebeest birthing season, it's hard to imagine a more stunning location to wrap up your adventure. Dramatic storms sweep in new life, and babies and attendant predators are everywhere. Flora bursts forth, fields of wildflowers bloom, and the striking contrast of red Masai against the emerald background makes for a perfect palette. Part of the beauty of this spot is the Masai way of life in its most natural state – and the other part is the opportunity to explore on foot: stretch your legs and open your senses to immersion in this wild space, as our local guides show you to see through their eyes.

Set just outside Ndutu, this secret little spot combines delicious solitude with unparalleled game viewing: idyllic for winding up your trip.

A photograph of an elephant in a savanna landscape. The elephant is dark and has a large, curved tusk. It is standing in a field of tall grass and low bushes. In the background, there is a large, bare tree and a bright, hazy sky. The overall tone is warm and golden.

*"We have no idea what heaven looks like but this must be the closest to it. Thank you very much for an unforgettable 8 days. The only thing left to do is to work out when to come back!" Nadia & Zafi*
