

PYRAMIDS OF LIFE

THE ESSENCE OF NATURE

The essence of “Pyramids of Life” is the links that keep nature together and working like an orchestra: we all depend on each other – every living organism in this world.

There is also an indescribable purity to being immersed in a wholly natural setting. Clean air, unspoiled and untamed, and animals that are truly wild: it's an unconditional environment that we are lucky to touch, and yet is untainted by our fingerprints.

If you immerse yourself in it, osmosis begins to take effect, and the quietude and the beauty quietly infuse your being. In the company of our guides, you are among people innate to the place, who can unveil this way of life to you. They are attuned to its essence and can translate it by showing you to see through their eyes.

ITINERARY AT A GLANCE

DAY 1 – Fly to Mara/Serengeti, Game drive to Camp

DAY 2 – Game drives/Walks

DAY 3 – Game drives/Walks

DAY 4 – Game drives/Walks

DAY 5 – Game drives/Walks

DAY 6 – Game drives/Walks

DAY 7 – Game drives/Walks

DAY 8 – Fly home

SAFARI GURUS

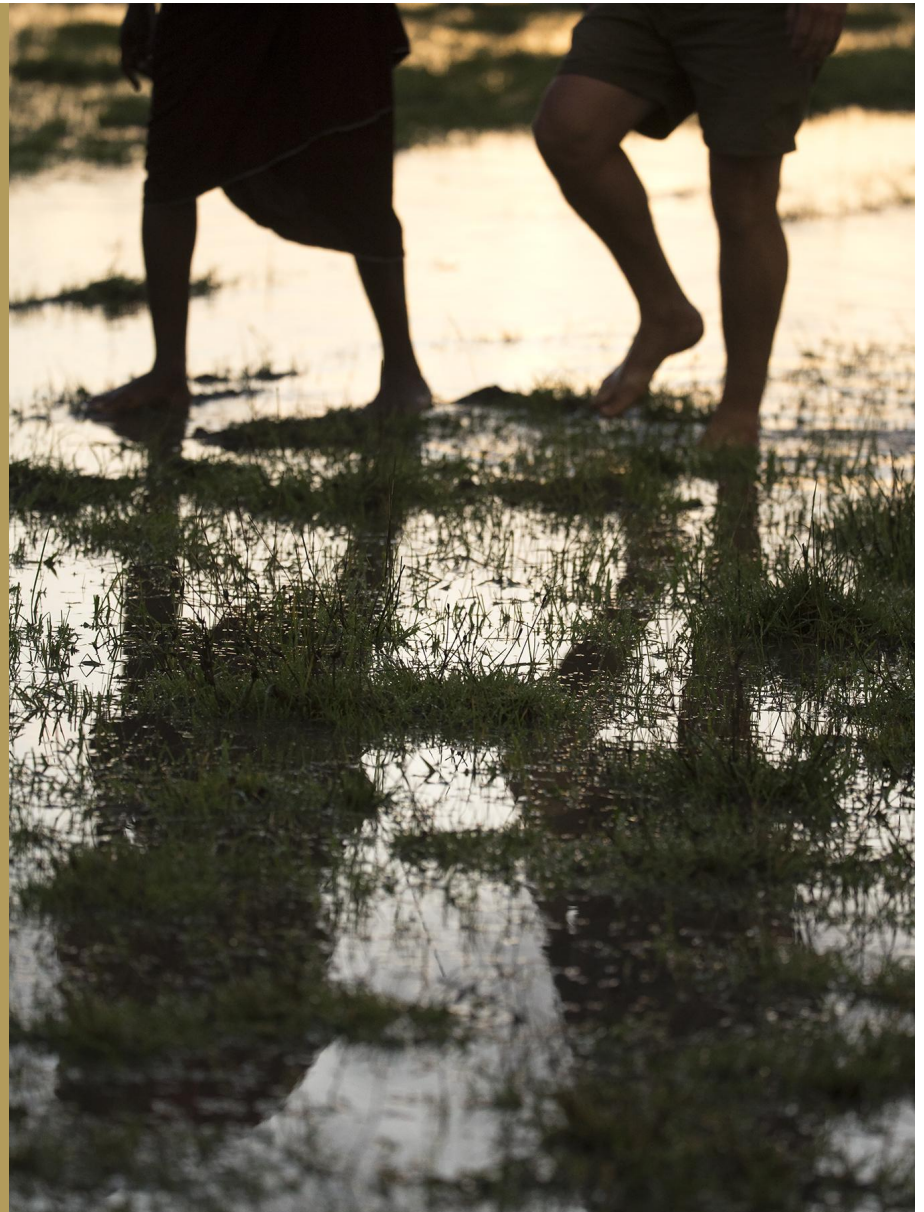

The very foundation of Alex Walker's Serian is constituted by a deep respect for the beautiful wilds of Africa, its people and cultures. The preservation of these precious spaces lies at the heart of our ethos and practice.

Key to conservation, is managing guests interaction with these wild spaces. Our purpose is to provide you with unparalleled access to the world we're in. The camps, and experiences we offer, are designed to lay open these incredible spaces for you... To let you explore, learn the intricacies and secrets, be there as the daily miracles of life and death, deluge and desert, sunlight and starlight, chaos and serenity unfold.

MASAI MARA

Serian sits within the 80,000 acres of Mara North Conservancy, to which only a handful of others have access. Exclusive and private, we are one of the founding members and management. Off-road and night-driving, riding and walking are all great ways to explore this zone.

“Tightening of shoelaces, the smell of fresh unwritten paper, doodling to check the pen works, that fast walk that isn’t a run yet. Chefs, mess attendants, guides, drivers all gather round to read the schedule that Roisin has just hung on the news board. “Pyramids of Life” is starting.”

SERENGETI

The Serengeti is truly one of the most amazing places on the planet. It encompasses an enormous chunk of northern Tanzania, as well as the majestic Mara River snaking down from Kenya, bringing life and vitality, and staging the unbelievable spectacle of the wildebeest river crossings.

Most remarkable is its sheer magnitude: think vast expanses of wide-open spaces, a million acres of sky, and mega-herds that have to be seen to be believed.

A close-up photograph of a green lizard with yellow spots climbing a tree trunk. The lizard is positioned on the right side of the frame, facing left. The tree trunk is made of weathered, greyish-brown wood with a prominent vertical grain. The background is a soft, out-of-focus natural setting with various shades of green and brown.

ALEX WALKER'S SERIAN

"We have no idea what heaven looks like but this must be the closest to it. Thank you very much for an unforgettable 8 days. The only thing left to do is to work out when to come back!" Nadia & Zafi
