DAY 1 • 2 • 3 • 4

Our Serengeti South camp takes you to the extreme tip of the savannah. Set on the edge of the short-grass plains that host the million-strong wildebeest birthing season, it's hard to imagine a more stunning location. Dramatic storms sweep in new life, and babies and attendant predators are everywhere. Flora bursts forth, fields of wildflowers bloom, and the striking contrast of red Masai against the emerald background makes for a perfect palette. Part of the beauty of this spot is the Masai way of life in its most natural state – and the other part is the opportunity to explore on foot: stretch your legs and open your senses to immersion in this wild space, as our local guides show you to see through their eyes.

DAY 5

On foot you will feel the opening of your senses, sharpening in response to the immediacy of the wilderness: vision, sound, smell all respond to the challenge of perceiving and reading the primordial signals of the bush. Alex, in company of traditionally attired and armed Hadzabe guides, will teach you to see the landscape through their eyes, and immeasurably enhance the richness of the way you experience it. Drink in the active participation of engaging with your surrounds, and cultivate a fuller appreciation of the myriad intricacies that make up the magic of the bush. By night, take adventure back to its roots with fireside meals and bedrolls under the stars, and relish the stripped-back simplicity that is the beauty of flycamping.

DAY 6 • 7 • 8 • 9

The open plains of the Lamai Wedge are uncommonly beautiful and abundant in big game. The landscape is reminiscent of scenes from "Out of Africa" and there is plenty of freedom to roam and explore

Outside of the migration season the Lamai Wedge is home to vast resident herds of elephant, buffalo, zebra and topi and abundant big cats the "Lions of Lamai".... A year round destination for those seeking a quiet refuge with plentiful wildlife.
